

OT 203 : Electronic Health Records

Lecture Hours 3

Credits 3

This course is designed to familiarize students with the capabilities of an Electronic Health Records program. Students will use a computer program to maintain patient files, schedule appointments, store treatment information, enter diagnosis with procedures to locate medical codes for billing, and submit claims to an insurance company.

Prerequisites

[OT 113](#), [CT 113](#) (CPSI 1003) or departmental approval
